About Me

Informatics Engineering graduate from Universitas Pamulang with a strong enthusiasm for pursuing a career as a Data Analyst. Proficient in SQL and Excel, as well as data visualization tools such as Tableau, Power BI, and Looker. Skilled in data cleaning, exploratory data analysis, and transforming raw data into meaningful insights to support informed decision-making.

Education

Universitas Pamulang

Aug 2021 - Feb 2026

Bachelor's Degree in Informatics Engineering, GPA: 3.37/4.00

- **Relevant Coursework:** Statistics, Calculus, Linear Algebra and Matrices, Discrete Mathematics, Numerical Methods, Database Systems, Data Structures, Management Information Systems, Artificial Intelligence, Algorithms and Programming, and Informatics Logic.
- **Final Thesis:** Implementation of Internet of Things for Personal Vehicle GPS Tracking Using an GPS Data Parsing Algorithm.

Project Experience

Micro, Small, and Medium Enterprises (MSMEs) - Tangerang Regency

Sep 2025 - Present

Operations Management and Sales Data Analysis

- Managed daily raw material inventory records using Google Sheets to maintain inventory accuracy.
- Monitored and analyzed daily sales data to support business operational decision-making.
- Oversaw daily store operations, including customer service and inventory management.

Data Entry - South Tangerang

Feb 2024 - Mar 2024

House of Representatives (DPR) Candidate Election Data

- Compiled and entered data manually from thousands of documents collected across multiple polling stations (TPS) with accuracy and efficiency.
- Processed large volumes of data through manual data entry while maintaining accuracy.
- Validated vote totals to ensure data consistency and accuracy across polling stations.
- Performed data cleaning to identify and remove duplicate records and data entry errors.
- Updated datasets periodically to maintain the accuracy and integrity of election data.

Community Service Program - South Tangerang

Jul 2023 - Jan 2024

Utilizing Artificial Intelligence in Education

- Designed and delivered educational materials introducing students to the fundamentals of Artificial Intelligence.
- Educated students on the responsible use of AI, including its potential benefits and associated risks.
- Demonstrated practical applications of AI tools to support students' learning activities.

Organization Experience

Youth Organization

Jun 2016 - Oct 2022

Independence Day Celebrations (August 17) & Eid al-Adha Activities - Kebon Jeruk, Jakarta |
Cisauk, Tangerang

- Coordinated activities across multiple teams and divisions to ensure the smooth execution of events.
- Managed event documentation and systematically organized event schedules and activity agendas.
- Collaborated with team members to organize and conduct events involving the local community.

Training, Courses, and Certification

• BNSP Professional Certification

Jul 2025 - Jul 2028

Programming: Program Specification, Structured Programming, Object-Oriented Programming (OOP), Library Usage, Database Access, Debugging, and Testing.

• YEC - Training Course

Data Analyst: Data Literacy, Basic Excel Functions, Basic Python Functions, Business Intelligence, and Analytical Reporting.

• DQLab - Certificate Module

SQL (Structured Query Language): Preparation Class, Fundamental Class, Industry Application.

Python: Preparation Class and Fundamental Class.

• MySkill - Bootcamp

Excel: Pivot Table in Microsoft Excel.

Data Analyst: Full-Stack Intensive Bootcamp.

Data Analyst: Final Project Mentoring.

• Dibimbing - Bootcamp

Data Analyst: Data Analyst & Business Intelligence.

• Revou - Bootcamp

Data Analyst: Introduction to Data Analyst.

Skills

- **SQL:** Database Querying, Common Table Expressions (CTEs), Window Functions, Joins, Subqueries, and Data Aggregation
- **Python:** Pandas, NumPy
- **Excel:** XLOOKUP, VLOOKUP, Index-Match, Pivot Tables, Power Query, Conditional Formatting, Interactive Dashboards
- **Data Visualization:** Looker, Tableau, Power BI
